

Call for Nominations
Editor-In-Chief
ACM Transactions on Computation Theory

The term of the current Editor-in-Chief (EiC) of the [ACM Transactions on Computation Theory \(TOCT\)](#) is coming to an end, and the [ACM](#) Publications Board has set up a nominating committee to assist the Board in selecting the next EiC. TOCT was established in 2009 and has an average submission rate of approximately 67 manuscripts per year. It has been managed well and has a growing reputation.

Nominations, including self nominations, are invited for a three-year term as TOCT EiC, beginning on January 1, 2017. The EiC appointment may be renewed at most one time. This is an entirely voluntary position, but ACM will provide appropriate administrative support.

Appointed by the ACM Publications Board, Editors-in-Chief (EiCs) of ACM journals are delegated full responsibility for the editorial management of the journal consistent with the journal's charter and general ACM policies. The Board relies on EiCs to ensure that the content of the journal is of high quality and that the editorial review process is both timely and fair. He/she has final say on acceptance of papers, size of the Editorial Board, and appointment of Associate Editors. A complete list of responsibilities is found in the [ACM Volunteer Editors Position Descriptions](#). Additional information can be found in the following documents:

- [Rights and Responsibilities in ACM Publishing](#)
- [ACM's Evaluation Criteria for Editors-in-Chief](#)

Nominations should include a vita along with a brief statement of why the nominee should be considered. Self-nominations are encouraged, and should include a statement of the candidate's vision for the future development of TOCT. The deadline for submitting nominations is October 27, 2016, although nominations will continue to be accepted until the position is filled.

Please send all nominations to the nominating committee chair Chris Hankin at c.hankin@imperial.ac.uk.

The search committee members are:

- Chris Hankin (Imperial College London), *Chair and ACM Publications Board Liaison*
- Johan Håstad (Royal Institute of Technology, Sweden)
- Ronitt Rubinfeld (MIT and Tel Aviv University)
- Rocco Servedio (Columbia University)
- Omer Reingold (Stanford University)
